## French SLK Slave Lock Replacement

Shootbolt tooling issues have given us cause to rationalise our French door slave solutions. The SLK French door solution will soon become obsolete and will be replaced by the FGTI slave door system which will also give you the opportunity to produce a Part Q compliant French door system.

The master lock and keep solutions will remain the same with the changes applying to the slave lock and all shootbolts.

The slave lock is a fixed size with a croppable shoot bolt range providing the size variations. To ensure that you can order the correct parts for your requirements we are providing a FGTI booklet and configurator to assist with your ordering.

If you have not yet received this information please contact your Project Manager or Customer Care Coordinator.

Parts that will be shortly phased out are:

Part number	Description
2835520	STV-A Scorpion 75 Shootbolt
4949531	STV-A 125/16 French Shootbolt
4949533	STV-A 200/16 French Shootbolt

FGTI Configurator

FGTI Booklet containing layouts and size tables
