

Daytime latch – the trick with the click

Incredibly simple – simply ingenious

in
doors

Winkhaus TaFa daytime latch – Opening doors easily

Thanks to the innovative TaFa daytime latch from Winkhaus the transit function on the door can be used with only one click. In this way it is possible to open the door from the outside without needing a key.

The clever Winkhaus solution – the TaFa daytime latch

- + Easily retrofittable
- + Suitable for use in conventional mortice locks, multi-point locking systems and the automatic AV3 lockig system (cannot be used in other automatic locking systems)
- + Quick assembly without needing any wiring
- + Simple to use – with just a flick of the finger
- + Convenient and inexpensive

The Winkhaus TaFa daytime latch can be used with the modern automatic locking systems autoLock AV3 and blueMatic EAV3 as well as with conventional locking systems. In all locking systems it works like an electric door strike which is set to the daytime function. The day mode is mechanically enabled or disabled via the blue lever with only one hand. In this way the latch is only held by the retractable daytime latch allowing you to push open the door sash at any time, without requiring a key.

The Winkhaus daytime latch is therefore a simple and low-cost alternative to traditional electric door openers which are very frequently used only to take advantage of the mechanical day function whereas the electric option is rarely used.

This function, often encountered in doors open to the public (such as shop doors), can also prove valuable for private homes, for example in order to load and unload a car that is parked in front of the house.

Universal component

- For all Winkhaus standard latch-deadbolt FRA keeps or keep rails with and without an FAB latch ramp
- Works purely mechanically and can therefore be mounted without time-consuming wiring
- If used in standard locking systems (not autoLock AV3) it can be used right / left

Variants

a) Daytime latch for standard doors

STV-TAGESFALLE 9/91 TAFa FA LS	5006562
STV-TAGESFALLE 9/91 TAFa FA RS	5006561
STV-TAGESFALLE 10/9 TAFa FA LS	5006564
STV-TAGESFALLE 10/9 TAFa FA RS	5006563

b) Daytime latch with “reinforced spring” for heavy-duty doors (in case of increased wind loads or pressure)

STV-TAGESFALLE 9/91 TAFa FA STARK LS	5015108
STV-TAGESFALLE 9/91 TAFa FA STARK RS	5015109
STV-TAGESFALLE 10/9 TAFa FA STARK LS	5015110
STV-TAGESFALLE 10/9 TAFa FA STARK RS	5015111

c) Latch plate (accessory / spare part)

STV-EINSATZW. A-9/91 TAFa FA MC (standard)	5011393
STV-EINSATZW. A-10/9 TAFa FA MC (less pressure)	5011392
